

Problem Solution Fit

1. Product Value Proposition

We map the identified customer pain points to feature solutions built directly into CreditGuard AI:

Customer Pain Point	System Feature Solution	Delivered Value
Slow approvals	Instant ML Scoring Engine	Assessment in under 10ms
Black-box predictions	LIME Explainability Engine	Transparent risk factor breakdown
Loss of session logs	SQLite DB Log persistence	Consolidated history records logs
Security vulnerabilities	script encryption & csrf	Enterprise security compliance
