

Team Involvement in Demonstration

1. Role Allocations Matrix

The development, security auditing, UI styling, and DevOps deployment roles were allocated across team sprint leads:

Role	Activities Completed	Owner
Lead Python Engineer	Designed ML pipeline, factory patterns, and explainability engines	Sk Md Shariff
DevOps specialist	Configured Vercel routing rules and GitHub actions validation workflows	Sk Md Shariff
Security Engineer	Addressed Bandit security warnings and scrypt password encryption	Sk Md Shariff
UI/UX Designer	Styling tokens, dark theme variables, gauge animations, and wizards	Sk Md Shariff
